

MISSION HERO MODE

FOR LADY DEATH

HARD / 6 SUPER HEROES

This Mission requires the rules and components found in

- Marvel Zombies
- MZ X-Men Resistance
- MZ Guardians of the Galaxy

Designed by: **LibraSeth**

In an attempt to win the love of Death herself, Thanos has been spreading a zombie plague throughout the cosmos. Nova barely made it from a zombified Xandar to warn the heroes of Earth. Thanos knows Earth will be a challenge, so he has caught and bitten several of our allies that were out on space missions and imbued each of them with the power of an Infinity Stone! They will arrive at any moment to spread the Hunger. Suit up because we are going to hunt them all down. The world will NOT end today!
