

INFINITE PURSUIT

DIFFICULTY: NIGHTMARE / 120 MINUTES

This Mission requires the rules and components found in Marvel Zombies: X-Men Resistance, Marvel Zombies Core Box, Guardians of the Galaxy Set Expansion.

Design and Development: **Tsyclone**

Thanos the Mad Titan has descended upon New York and he is determined to collect all six Infinity Stones while Earth's Mightiest Heroes are at their weakest. Fortunately for us, before succumbing to the virus, Tony Stark developed the Nano Gauntlet at Avengers Tower to utilize the power of the stones against him. But in the midst of the chaos, he set the tower on lockdown! Our only hope of getting access to the Nano Gauntlet now is through a hidden access code and biometrics from his partner and Stark Industries CEO, Pepper Potts.

Tiles needed: **1R, 2R, 3V, 4V, 5V, 6V, 7R, 8V, 9R**

1R	2R	8V
4R	7R	6V
3V	9V	5V

OBJECTIVES

Defeat the Mad Titan. Accomplish the following objectives in order:

1. Obtain the Nano Gauntlet.
2. Permanently eliminate Thanos before he collects all six Infinity Stones.

SPECIAL SETUP

- **She's Here Somewhere.** Place the Pepper Potts Bystander Card randomly among the 8 Bystander Cards that are NOT on tile 5V.
- **He's Still There.** Instead of placing a Bystander Card facedown on tile 5V, place the Iron Man Zombie Hero Card. He spawns immediately when the Blue Door is opened.
- **The Hidden Access Code.** Place the Blue Objective randomly among the Red Objectives, facedown.

SPECIAL RULES

- **We're in the Endgame.** Beginning on Round 2, at the start of each Round, each Super Hero gains 5 XP.
- **One Chance.** If Pepper Potts is eliminated before the Blue Door is opened, the Super Heroes immediately lose the game.
- **Biometric Lockdown.** The Blue Door can only be opened by the Super Hero escorting Pepper Potts once the Blue Objective has been taken. The locked Red Doors cannot be opened until the Blue Door has been opened.
- **The Nano Gauntlet.** The Green Objective is the Nano Gauntlet. A Super Hero in its Zone may spend 1 Action to take it. A Super Hero in possession of it may spend 1 Action to give it to another Super Hero in their Zone. Once in possession of it, if it is in Thanos' Zone when he is eliminated, he is permanently eliminated.
- **The Mad Titan.** At the start of the first Enemy Phase, spawn Thanos on the Green Spawn Point. If he is eliminated without the Nano Gauntlet in his Zone, he immediately respawns on the Green Spawn Point with one less Infinity Stone than he has accumulated (selected at random) to a minimum of the number indicated at the current Danger level.
- **5-6 Super Heroes.** The Green Spawn Point is only active in games with 5-6 Super Heroes.
