

# MOVIE SCENE PLAY ORDER

The Night of the Living Dead is a classic for most zombie fans. Even though the gameplay for Night of the Living Dead Zombicide was way too easy for most, it still was a very nice add to my collection.

Follow the below scene suggestions to follow the movie's story line and to add a little extra's on top of that.

## PREQUELS: LEADING UP TO THE MOVIE

The movie mentions how the survivors all came to the house individually. The "*Lonely Roads*" expansion adds prequel scenes that allow you to play these prequel scenes:

- They're coming to get you Barbara
- They turned over our car
- We were swimming at the lake
- I was at Beekman's dinner

## THE MOVIE SCENES

The scenes in the Night of the Living Dead Zombicide box are relatively similar to the actual movie. Play the following scenes to play the actual movie:

- S1: What's happening?
- S2: Is there a key?
- S3: They're afraid of fire
- S4: Now, let's move it!
- S5: Night of the living dead

## EXPANDED SCENES INSIDE THE HOUSE

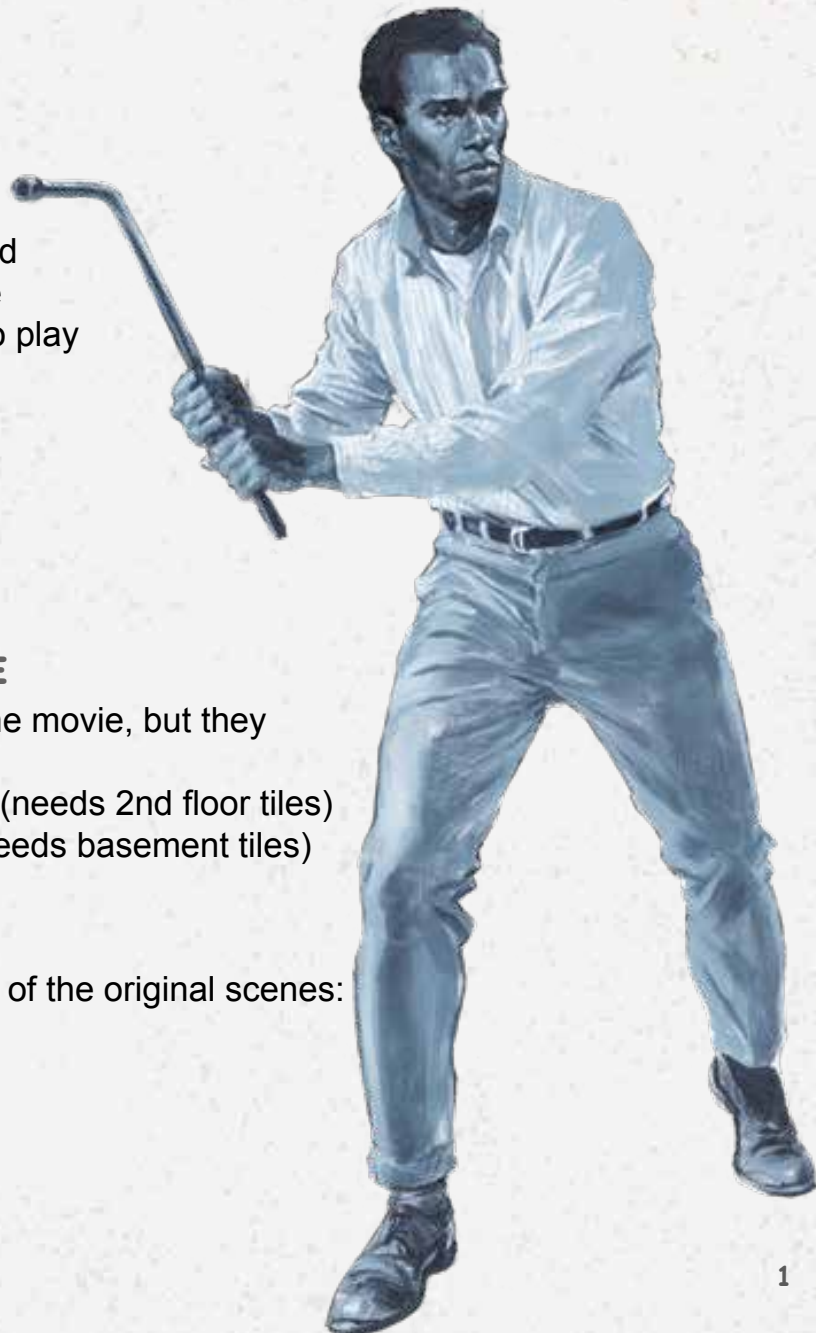

The following scenes did not happen in the movie, but they add a little extra's inside the house:

- GD01 - There is someone upstairs (needs 2nd floor tiles)
- GD02 - We can't wait any longer (needs basement tiles)

## THE MOVIE SCENES CONTINUED

We continue the movie story with the rest of the original scenes:

- S6: To Willard
- S7: Go get Johnny
- S8: Johnny's car
- S9: Rescue party
- S10: Another one for the fire

## SEQUELS: AFTER THE MOVIE

After the movie ends, the following campaign adds a few scenes to continue the story. In campaign "*Project venus*", we start when the same survivors have left Willard. They arrive at the town of Derry:

- PV1: The Misanthrope
- PV2: Operation Cornfield
- PV3: Knock, knock!
- PV4: Cousin Joe's long walk
